

# Complete Thermal Imaging Solutions

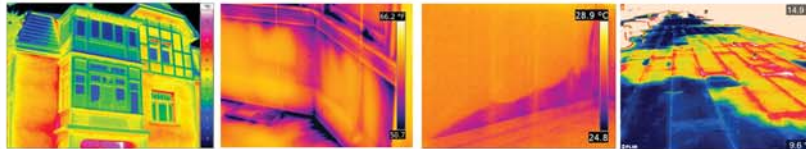

- ▶ Electrical machines diagnostics
- ▶ Inspections in electrical distribution systems
- ▶ Inspections of cables, bus conductors, joints
- ▶ Inspection of electrical switches

## INDUSTRIAL

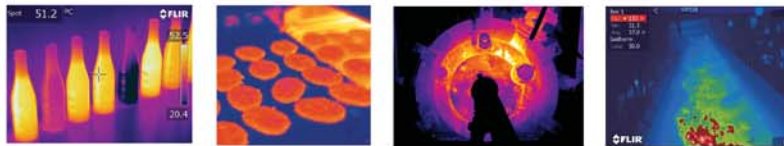

- ▶ Buildings inspection diagnostics
- ▶ Air leakage
- ▶ Moisture penetration and water leakage
- ▶ Roof inspection

## BUILDING DIAGNOSTICS (THERMAL BRIDGE)

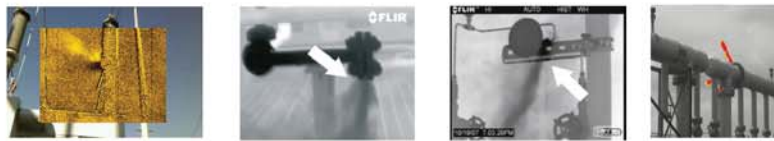

- ▶ Automated inspection in processes
- ▶ Process control
- ▶ Equipment condition monitoring
- ▶ Fire prevention and detection

## AUTOMATION

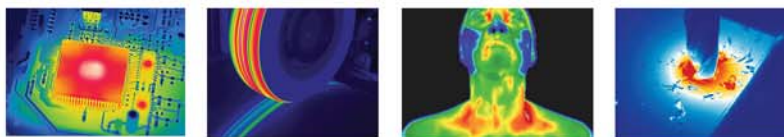

- ▶ SF6 leakage detection
- ▶ Leakage in LPG instalations

## GAS LEAK DETECTION

- ▶ Heat dissipation in PCBs
- ▶ Nondestructive testing of materials (NDT)
- ▶ Medicine
- ▶ Laboratory applications

## RESEARCH AND DEVELOPMENT

## TRAINING

Our own engineering staff, professionally trained and certified

- ▶ Consulting and preparation of thermal imaging projects
- ▶ Consultations for camera selection
- ▶ Advanced thermal imaging training

EXPERT LEVEL DIAGNOSTICS
